Presenter:  Title:

**Strategic Initiative:**

**BACKGROUND/JUSTIFICATION:**

At the January 22, 2019 County Board Workshop Session, the Board considered 5 possible building options for the Waconia Event Center. The Board provided direction to consider additional planning work for the Waconia Event Center. The planning options to be considered included initial schematic design to completely overhaul the existing facility as well as schematic design for a new building within the park. Staff has received a proposal from the architect to do this work and would like to discuss the scope with the board before proceeding.

Meanwhile, staff continues to develop grading, paving and utility plans for the park and is ready to give an update to the board related to cost, schedule and how the proposed grading plans and parking areas fit with the current event center. Staff will also update the board on the proposed regional gravity sewer design being developed with the City of Waconia including the proposed city annexation process.
