Enough is Enough, at the next Hollywood Township Board Meeting Monday in April 2021 I am going to go into detail what all happened with the John Linder built to sell CUP profiting 17 million. The outcry for truth started in 1997 and Carver County would not let the truth be known..To this day!

How Carver County has connected themselves to a con man instead of justice for all. For a public safety system still operating on lies.

The CUP which was given to John Linder was a weapon and a profit center.

You choose to stay with the lies instead of serving and protecting..

I have stood up for so many afraid to fight the almighty Carver County Machine.

Well, your machine is broken and can not be fixed.

But. Neither can those who die fighting for the truth and safety. But their story will be told.

The Truth which finally come out will be the rebuilders of change.

Last month Sam Cooke found the picture of John Linder and his Broker Jim Wychor sitting with the new owners of the radio stations.

A Black Community of Hope for their own radio station and a dream of Sam Cooke was going to make Mpls a safer place. A way with music, sports and community goals to have a chance for a voice. That Dream was killed soon after. They had no idea what the con man John Linder and John Wychor were leaving out was so much information in those meetings. About the concerns in Hollywood Township. They would have walked away from the deal.

It was in a restaurant in Wayzata and John and Jim could care less, that the radio staff in Hutchinson, still thinking they would be operating the new 100,000 watt FM blasting cancer machine. That was in January 2000 the dinner with no details..Just millions for the lies.

Carver County had already done all their dirty deeds with John Linder, but John Linder forgot to invite them also into this 20 million dollar dinner con job.

AKA Ponzi scheme

1997 - 2021 lies is to this date

a form of fraud in which belief in the success of a nonexistent enterprise is fostered by the payment of quick returns to the first investors from money invested by later investors.

I have Commissioner/Chairman Tim Lynch already marching in order to get the information of all antennas and transmitters, having FCC paperwork done correctly and so much more. But then again for years I have asked for that information and for some reason Sheriff Jason Kamerud chose to go after me instead of turning over the information to even Hollywood Township. So I will take care of all the issues which he will not address. Call it Public Watchdog and make them aware.

Commissioner/Chair Lynch you will be doing the same.
Enough is Enough and this will be the heartbreaking truth of what a CUP can do to destroy
life's. if your name is on this;public comment email you are not going down the rabbit hole
without a question, Why did you let this still happen?

With Great Concern and Thanking all those who fought for the truth.
This is now part of the public record.
