This is now part of public comments and under five minutes

After watching the public comment last week on June 1,2021 it is hard evidence of a pattern when it comes to some CUP's in Carver County.

It is hard evidence of a pattern where you do not listen to the citizens, not enforcing the person who has rules to follow, the rules on some CUP's and force those living next to out of control CUP's to deal with your **reckless disregard**.

Clearly that tone was set by Dave Hemze, Carver County Administrator, then used by Carver County Attorney, Carver County Commissioners, Carver County Planning Commission.

Given to John Linder with so many secret deals attached to CUP's I have been correct in addressing from the start The CARVER COUNTY SHERIFF and some staff of the CUP of John Linder of 1997 already with their silence to this day is a lie. I would never think I would be the one attacked for the truth. But the lies were so large and so dirty, you had to protect the lie.

Some employees and others from the start of a CUP which destroy life's think this is over, this is The Telecommunication Act of 1996 abused by a John Linder from Mankato Minnesota and his group tied to greed. Carver County with conflict of interest tied to this spider John Linder and caught in his web of lies.

I address them with the truth, because **White Lies Matter**.

How do you deal with those who are already for more than 20 years have been in conflict of interest with John Linder? Still using the CUP and not addressing the RF dangers.

But even with these Lawyers, Liars and Lobbyists their papertrail is following them, well documented. To those attorneys there is no statute of limitations and stop that abuse right now.

I have come to meetings and watched and listened to so many citizens with hope of some form of action. Turn away and walk out of the Carver County Board Room abuse.

This year in January,when the time came for nomination of the 2021 Chair again this dirty deed was handled. New Commission John Fahey and Commissioner Gayle Degler wanted Commissioner Tim Lynch to be Chair and made it happen.. It has been 15 years since Commissioner Tom Workman has been nominated to Chair. Then for the Vice Chair the Good Old Boys were at it again Commissioner Lynch and new Commissioner John Fahey needed Commissioner Degler to take that role of power of Vice Chair. The dance was done and they made sure Commissioner Workman was out again. Again a pattern. But some are watching and have a score card of this abuse. Commissioner Tom Workman's leadership put on the sidelines,because that is best for the lies.

There is a reason for that pattern, there is a reason for that **reckless disregard**. Because when Commissioner Tom Workman was Chair there was a chance of action.

As Chair Tim Lynch tells this person with hard facts talking at public comments about the CUP June 1st. 2021 Chair Lynch cuts him off and says he has given him six minutes to talk and basically to wrap it up. It is the Chair Tim Lynch and other past and present Carver County commissioners who have created this abuse of pattern, abuse of power. So have you helped this person who drove to the Carver Commissioner meeting again yet? It has been two years.

What he was saying is keeping the pattern of abuse of some CUP's documents to this day, once again the score card is current.

So you have shown nothing has changed since John Linder walked into Carver County with his lies and greed and gave him a CUP to ruin lives and cause death.

I have given you hard evidence and you think this **Political Using Schemes** is going to work? What I am calling PUS. It is not.

Then Carver County Attorney Peter Ivy sends Sam Cooke an email letter, a Black Man with a dream almost ready to bloom, of a Radio Station for the Black Community which was going to help the community, was stolen and Peter Ivy blamed Hollywood Township. Protecting John Linder. Because Carver County does not control the CUP's. Crushing his dream because of a CUP full of lies.

So this is the recap, some citizens are going to make sure other citizens in Carver County know about this pattern of **reckless disregard**. So if you are a Carver County Commissioner Truth is knocking at the door again. Are you going to open that door to address it with action? Or live in the spider's web of lies.

This email is now part of public comment and my phone number is 952-955-1376 if you want to discuss CUP issues.

This public comment is in memory of all those who came to meetings and were not told the truth. Now many in heaven, but I will make sure their voice will be heard. White Lies Matter.
