Motion carried unanimously.

Lynch moved, Fahey seconded, to open the 2022 redistricting public hearing. Motion carried unanimously.

Kendra Olson, Elections and Licensing Manager, explained the purpose of the public hearing was an opportunity to receive public input on redistricting. She reviewed the redistricting schedule and the deadline to approve a plan. She indicated the current commissioner districts were used as a baseline with Districts 1 and 5 on the 2022 ballot due to boundary changes and annexation and Districts 2 and 4 on the ballot due to the four-year terms ending in 2022. She pointed out district options are limited due to Waconia annexations in Laketown Township and city precinct boundary changes.

Olson explained Options A, B and C and explained the positive and negative impacts for each option. She reviewed Option D that was submitted by the public and explained why that option did not meet the statutory requirements or municipal precinct boundary requirements.

She pointed out the statutory requirements that drive the plan. Olson highlighted population changes by municipality and noted precinct changes needed to be factored in when redistricting. She explained the Waconia “marriage” requirement that requires them to lock together certain precincts due to annexations and islands. Olson stated this marriage limits their redistricting options.

She stated she would be asking the Board to close the public hearing next week and at that meeting approve the 2022 Redistricting Plan. She indicated they would also asking for a Resolution to determine two- and four-year terms going forward and for approval of the Soil and Water 2022 Redistricting Plan. She noted Soil and Water may be recommending a slightly different boundary plan, but the Soil and Water Districts are not required to be exactly the same as the Board’s plan.

Reid Welch, Carver, Minnesota, recognized the unique redistricting challenges and, in his opinion, suggested they choose Option B or C. He thought the compactness and boundary requirements made sense and there was not a good solution to the Waconia marriage requirement. He stated equal population representation was important and anything to get the Districts as close to the 10% was ideal.

Mark Metz, County Attorney, stated there was not a mathematical equation in the decision and the Board needed to do their due diligence and balance out the criteria. He stressed it was important to consider all factors and one does not have any more weight than the other. Metz added it was important for the Board’s consideration to be thoughtful and specific and when they make their determination they express why they are choosing or rejecting an option.

Workman moved, Lynch seconded, to continue the 2022 Redistricting Public Hearing to April 26, 2022. Motion carried unanimously.

Kerie Anderka, Employee Relations, requested the Board approve updates to the Personnel Policy and Health & Safety Policy manuals. She noted Employee Relations periodically reviews policies and brings recommended updates to the Board for approval.

Anderka explained updates to the motor vehicle, respiratory protection and lactation support policies. She stated the former telework policy will now be located in the Personnel Policy Manual. She stated the telework policy was completely updated and recognizes the shift in employment practices since the pandemic. She stated telework was a key business strategy and would increase

flexibility, service delivery options and reduce the need to expand office space. Anderka indicated telework has proven highly successful and 70% of the non-law enforcement workforce was engaged via telework, either primarily remote or hybrid work arrangements.

She stated performance-based outcomes will continue to be a key strategies with telework.

Fahey moved, Lynch seconded, to adopt the Carver County Personnel Policy and Health & Safety Policy updates as recommended by the Employee Relations Division and remove the former Telework Policy from the Administrative Policy Manual. Motion carried unanimously.

Workman left the room at this time.

Pat Lambert, Public Works, requested the Board adopt a Resolution authorizing settlement agreements for right of way acquisition for the Highway 24 project.

Fahey offered the following Resolution, seconded by Degler:

Resolution #32-22
Authorizing Settlement of Compensation to Owners for Acquisition of
Real Property Interests Needed for Highway 24 Project

Degler, Fahey, Udermann voted aye. Lynch abstained. Workman absent.

Workman returned to the room at 10:12 a.m.

Workman moved, Lynch seconded, to adjourn the Regular Session and go into work sessions with Public Works and Public Services. Motion carried unanimously.

BACKGROUND/JUSTIFICATION:

Carver County Employee Relations Division maintains a schedule of wage ranges for various seasonal, temporary and on-call (STOC) positions, which in addition to regular full-time and part-time employees, allow the County to effectively deliver services in a variety of areas. Where seasonal or occasional assistance is required, these positions play a valuable role in our workforce.

Employee Relations recommends an update to the STOC wage ranges to allow for greater flexibility in the current job market and to continue to enable departments to attract candidates to seasonal, temporary, and on-call position in a competitive employment market. Recent STOC Wage Schedule updates focused primarily on addressing seasonal worker ranges ahead of annual seasonal staffing. The current update includes recommendations arising from a review of jobs, and groups of jobs, where STOC workers are less frequently hired but may be needed on occasion. The updates move certain former stand-alone listings into broader STOC groups based on general level of work, and adjust ranges for the capacity to include additional jobs or unique needs.

The attached shows the proposed rates by position and job type groups. Employee Relations reviewed comparable types of work within the County's classification structure and referenced the County's updated 2022 salary ranges to assemble the recommended STOC wage ranges. For STOC positions or groups that address comparable types of work as regular positions, Employee Relations recommends the STOC ranges encompass the portion of the range from minimum to target rate associated with comparable regular positions and/or similar types of work. This provides a method to define STOC ranges that can accommodate a variety of needs, including areas where STOC assistance is rarely needed. The proposed STOC Wage Schedule also removes the stand-alone Computer Support Personnel and Computer Systems Application Analyst and adds an Information Technology Personnel STOC wage range that encompasses technical IT positions with a higher maximum due to the increasing difficulty in recruiting these highly technical positions.

Recommended STOC Wage Scale updates do not have a direct immediate impact on actual rates for current staff. Employee Relations, in partnership with the hiring manager, will continue to review qualifications of the candidate and related market conditions when determining actual wage.

Divisions utilizing STOC personnel will continue to be responsible to maintain overall STOC costs within the approved budgets for this purpose and no funds are being requested with these recommended adjustments.

BACKGROUND/JUSTIFICATION:

Love INC is well established community service provider in Carver County, providing direct services and referral for residents in need. The COVID-19 pandemic had a negative impact on the traditional funding streams relied upon by Love INC to maintain operations. Executive Director, Al Norby, will provide the Commissioners with an overview of the services Love INC provides to the community and discuss a request for funding to assist Love INC in continuing to provide a pre-pandemic level of services to the community.

Finding trained workers in the construction and building trades has not kept pace with the demand for these very important jobs. To address this issue locally, Kyle Hunt, Board Chair of the Outpost, will present a proposal to start a building trades education program teaching students to construct what are commonly known as Tiny Houses. Kyle Hunt will also discuss a request for funding to launch this construction and building trades educational program in Carver County.
