Customer Service: Continue the County's delivery of high value, timely service and support

BACKGROUND/JUSTIFICATION:

The force line that is located on the north side of HWY 212 between the Public Works building and County Rd 36 in Cologne that services the Public Works location was discovered to have a leak in early June. Carver County obtained quotes and awarded the project to Valley-Rich to replace a section of the line between two vaults.

As work continued on the project, it was discovered that another section of the line failed. Therefore, Carver County Facilities Services is requesting that we amend the contract with Valley-Rich to replace an additional 1,300 feet of piping between manhole #3 and the outlet structure. The cost of this additional work including materials, labor, restoration, testing and troubleshooting is \$56,100.

ACTION REQUESTED:

Motion to amend contract 23-326 with Valley-Rich to replace an additional section of the public works force line pending the contract review process.
