

# HIGHWAY 41/10 PROJECT

## PEDESTRIAN & BICYCLE IMPROVEMENTS | LANDSCAPING OPPORTUNITIES

The project will include underpasses, updated signage, rapid flashing beacons, painted crosswalks, and refuge islands (medians) on Highway 41 and Highway 10 to provide safer crossing opportunities.

In summer 2026, the county will install landscaping throughout the project area. These photographs of County Road 44 are a representation of what the Highway 41/10 project area could look like approaching each of the roundabouts at Bavaria Road, White Oak Drive, Highway 41/10, and Park Ridge Drive.

Areas in green represent landscaping opportunity areas once construction is completed. Plans are still in development.
